(54) Title: CONTAINER AND TOOL FOR FIXING A CONNECTION

(54) Bezeichnung: BEHÄLTER UND WERKZEUG ZUM FIXIEREN EINES STUTZENS

(57) Abstract: The invention relates to a container, in particular a collection chamber of a heat exchanger, comprising an opening (2), in which a connection (5) is mounted. To simplify the installation of the connection, the latter (5) has a deformable connection edge region (10) on the edge facing the container (1), said edge region protruding into the container (1) prior to the deformation process and after the deformation lying at least partially against the interior of the container opening (2).

(57) Zusammenfassung: Die Erfindung betrifft einen Behälter, insbesondere einen Sammelkasten eines Wärmetauschers, mit einer Öffnung (2), in der ein Stutzen (5) angebracht ist. Um den Einbau des Stutzens zu vereinfachen, weist der Stutzen (5) an seinem dem Behälter (1) zugewandten Ende einen

verformbaren Stutzenrandbereich (10) auf, der vor dem Verformen in den Behälter (1) ragt und nach dem Verformen zumindest teilweise innen an der Behälteröffnung (2) anliegt.
